

Mexico City Metrobús

Notes: You can walk to **Chilpancingo** metro from the **Nuevo León** stop, but it's a bit of a walk.

Also, even though the official maps say that **Coyuya** and **La Viga** stops are close to their respective metro stations, they are, in fact, quite a distance away, in a not completely safe neighborhood. **Canela** stop is the closest to **Coyuya** metro station.
